

# Minutes

## Board meeting

### DATE

April 21st

### TIME

12:00 PM – 12:30 PM

### IN ATTENDANCE

Gabriel Santos, João Gaspar, David Amorim, Francisca Silva, Guilherme Amaral, Francisco Albergaria

### TOPIC

- Tasks
- Reidentification
- Map
- Dataset

### DESCRIPTION

The team manager started by pointing out everything that's been done and is still being worked on by each member of the group in order to subdivide new tasks.

The group is going to search for datasets, to compare the models in order to be able to present data about the different tests and models tested, this, given to some feedback given in the last presentation.

An email was created for the organization to test the notifications functionality.

The group spoke on the live cameras problem, as well as the pages for reports and endpoints that are being done.

The group debated on the controller and next steps.

In the front end the group concluded we're missing the integrations, the feedback we received on showing the camera after it's added (which is already done).

Milestone 3.

### TODO

- **Search datasets (test different models)**
- **Reidentification (In progress – Biometric and clothes)**
- **Map (In progress)**
- **Backend integration (For the new features)**
- **Reports (In progress)**

### NEXT MEETING

To be decided...
