TOPIC

The group gathered to discuss the presentation, and start with an overall brainstorming of the work, the technologies were confirmed, questions for the meeting with the supervisor were gathered, requirements were built, initial tasks were divided. The group also decided what course they wanted to take the project through, by defining a list of interactions and functionalities expected out of the project.

DESCRIPTION

Everyone gathered in a room to discuss how we should proceed, reread the work done previously and also analyze it. Review the guidelines for the presentation and project, review of the OpenUP.

The group also decided to start working in advance on the systems architecture and the Figma prototype. It was also spoken about the promotional video and poster, as well as ideas for it and possible execution for that and a logo for the application. The group talked about the need for a calendar of objectives, about the Docusaurus documentation, the GitHub planning with GitHub actions and sprint planning.
