

Minutes

Board meeting

DATE	February 17th
TIME	12:00 PM - 12:45 PM
IN ATTENDANCE	Gabriel Santos, Guilherme Amaral, Francisco Albergaria, João Gaspar, David Amorim, Francisca Silva

TOPIC

- Creation of GitHub organization
- Creation of minutes
- Documentation (docusaurus)
- PowerPoint regarding first presentation
- Discussion of technologies for different tasks

DESCRIPTION

The group members discussed different ideas gathered throughout the week, and also that they had learnt from the previous work done.

Some technologies were debated upon, for motion tracking, background differentiating (all very theoretical since the group doesn't have access to last year's work **yet**).

The group started with creating the documentation website and setting up the organization for GitHub as well as a discord server for better and simpler and organized communication, with different channels for appointments, minutes, to-do, and so on.

TODO

- **Gather more information on the technologies**
- **Finish the group organization**
- **Get access to the repository**

NEXT MEETING

20th February
