DESCRIPTION

> This meeting was with the project tutors, here we talked about everything and majorly about the future plans, future presentations and work for the project.

Due to us already being almost at the finish line, we're taking care of the poster and video for the presentations and for "students@deti". We got feedback on everything that we've been working on in which it was pointed out to us that we need to better sell the product, by upgrading the frontend and making each page more user friendly and add the most amount of information possible.

Some corrections were made in the Poster.

The teachers advised us to start working on the live cameras feature due to it being a very demanding but also valuable feature in our project.
