Minutes

Board meeting

DATE	May 19th
TIME	12:00 PM – 12:45 PM
IN ATTENDANCE	Gabriel Santos, David Amorim, Francisca Silva, Guilherme Amaral, Francisco Albergaria

TOPIC

- Logs
- Checkpoint
- Biometrics
- Demon
- Segmentation
- Frontend / backend integration (several cameras and videos)
- Poster

DESCRIPTION

Lots of topics were spoken about at today's meeting. The group started by reviewing the necessary topics for the checkpoint meeting. One of the group members implemented a biometrics feature. Logs reviews were discarded from the User Stories.

The group setup multicamera in the frontend for several videos. There were corrections made to those same features.

Some corrections were made in frontend integration and new endpoints added regarding weapon detection logic.

Tests were made, but might have to be adapted due to changes in the backend.

Some tasks were revised and distributed, besides biometrics that was being done, the group started to work on the report and on the technical document, and also on a new page in the frontend.

TODO

- **Active time correction**
- **Report details page**
- **Frontend corrections**
- **Checkpoint**
